Exporter Name : Various	Country of : All Countries Origin
--------------------------------	--

Type of Material	Commodity Description	Quantity	Measure
Plant Material	Plant based processed foods and feeds, nuts (processed, unprocessed and raw), noodles, rice, herbs and spices for chemical analysis.	Unlimited	Units
Plant Material	Fresh fruit and vegetables (No fruit fly host material) for chemical analysis.	Unlimited	Units
Plant Material	Dried fruits, vegetables and leaves for chemical analysis.	Unlimited	Units
Plant Material	Frozen fruit and vegetables for chemical analysis.	Unlimited	Units
Plant Material	Fruit or vegetables processed into a puree.	Unlimited	Units

Type of Material	Commodity Description	Quantity	Measure
Plant Material	Timber samples, treated and untreated for chemical analysis, up to 40cm x 10cm size.	Unlimited	Units
Seeds	Seeds (only species listed in the Biosecurity Index) for chemical analysis.	Unlimited	Units
Water	Water samples for analysis.	Unlimited	Units

Post Entry Type : Laboratory - aprvd

Standard Reference : 154.02.17 (Standard - Transitional Facilities for Biological Products)

Transitional Facility : AsureQuality Limited -Laboratory Services
 P O Box 41
 Auckland 1140
 131 Boundary Road, Blockhouse Bay, Auckland

Operator : Shalendra Naidu
Inspector : Crystal Lange

Ref : 2719

Special Conditions :

SPECIAL CONDITIONS

1. On arrival in New Zealand all plant material not frozen is to be given a 100% inspection and if any pests are detected the consignment is to be reshipped or destroyed as directed by a MAF inspector.
2. For Frozen Fruit and Vegetables only:
 - (i) On arrival the quarantine inspector must be confident from documentation that the samples are in a frozen state prior to authorized movement to the transitional facility.
 - (ii) The samples are not to be opened prior to arrival at the transitional facility.

GENERAL CONDITIONS

1. All samples must be labelled. On arrival in New Zealand all documents associated with the consignment will be inspected by a MAF inspector.
2. The samples are to be consigned in secure packaging.
3. The samples are to be stored and used at the transitional facility in accordance with a quality operating system approved by the inspector of the listed transitional facility, and must not leave the facility without further authorisation from the facility inspector.
4. Any material remaining after analysis is to be incinerated/autoclaved for disposal, unless otherwise stated in the operating system with further authorisation from the facility inspector.
5. A record is to be kept by the importer of all samples introduced under this permit (including scientific name/description, country of origin, date of arrival) and the current status of the material (i.e. held/in

use/destroyed). This record is to be made available to a MAF inspector at all reasonable times.

6. If any conditions of this permit to import cannot be or are not complied with the importer may be required by a MAF inspector to reship or destroy the plant material.

IMPORTANT INFORMATION FOR PERMIT HOLDERS AND AGENTS

- 1 This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not guarantee that the goods you import will be given a biosecurity clearance. There are other restrictions in the Biosecurity Act 1993 which apply to the giving of biosecurity clearance.
- 2 You need to ensure that the goods you import comply with the provisions of the specific import health standard(s) and/or entry conditions. The import health standard may be amended during the course of your permit. Import Management will notify you of any significant changes to the import health standard and will re-issue the permit to accommodate these changes.
- 3 There are a number of other provisions in the Biosecurity Act 1993 which may affect you. If you commit an offence against the Biosecurity Act 1993, heavy penalties under section 157 of the Act might apply.
- 4 Apart from the Biosecurity Act 1993, there are other laws relating to or prohibiting the importation of goods. This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not absolve you of the need to comply with these laws.
- 5 Unless specifically identified in 'Description of Items' or 'Special Conditions' of the permit, NO new organisms, including genetically modified organisms, are permitted entry under this permit.
- 6 All cultures must be:
 - clearly labelled with the scientific strain and name
 - consigned in leakproof packaging
 - free from contaminants
- 7 All new organisms must not be opened until received by the nominated containment facility.
