

Dairy Industry Services

INSPECTION AND
CERTIFICATION

New Zealand's dairy products have a global reputation for being safe and of the highest quality.

People in this industry work hard, and we're proud to work alongside them, sharing technical expertise and knowledge gained from over 100 years' experience to help them take their products to the world.

We bring a personal sense of commitment and connection to this industry as we support our partners to proudly uphold what Aotearoa stands for in food – a higher standard of quality and safety.

As a leading provider of food safety and quality assurance services, we work with our partners at every point in the food supply chain. From our teams on the ground, to the experts in our laboratories, we are committed to delivering independent and trusted services which enable our partners to meet the most demanding market requirements.

We are an approved Recognised Agency (RA) for the Ministry for Primary Industries (MPI) and provide independent evaluation and verification services to New Zealand's dairy industry.

Working with care and passion, we offer the broadest range of food assurance services in Aotearoa.

Our services include:

- Farm Dairy verifications
- Risk Management Programme verifications
- Transport regulated control scheme verifications
- Heat Treatment validation and evaluation
- Heat Treatment Operational Checks
