

Streamline your compliance with the NZGAP experts

Looking for clear and concise compliance?

AsureQuality's 25 years of NZGAP auditing can help with that.

The AsureQuality Difference

Meet and exceed your NZGAP standards

AsureQuality has partnered with NZGAP since it began in 1999. Our team has deep experience with a wide range of crops, climates, and compliance challenges.

Spot risks early

Our sector specialists don't just check the boxes—they offer personalised support to help identify risks early.

Streamline your audits

Alongside NZGAP, our auditors are accredited to deliver GlobalG.A.P., organic certification and more. With AsureQuality as your single partner across multiple programmes, you get a coordinated approach that cuts duplication.

Help close at hand

Our dedicated NZGAP auditors are based in regional hubs across New Zealand. We work with growers of all sizes - from boutique orchards to large-scale exporters.

Digital support

We're developing digital auditing tools that will support certified growers with compliance tracking, data sharing, and predictive insights.

What this means for you

Less duplication and disruption - reduce admin hassle with streamlined audits across multiple programmes

Stay ahead of compliance issues with trusted support from our experienced team

Stronger returns - practical, early insights that set you up for smarter, faster growth.
