

# THE EXPERTS IN MICRO TESTING

## WHAT'S NEW?

MALDI Biotyper – same day bacterial identification \*  
7 day UHT sterility testing

## HOW WE ADD VALUE

Our technical team has over 100 years' experience covering Dairy, Meat, Food, GMP, and Pharmaceuticals

- Microbiology quality analysis (dairy, meat, food, water, environmental, pharmaceutical)
- Product shelf-life evaluation & storage trials
- Microbiological risk assessment of products (existing or newly developed)
- Pathogens surveillance programme design - including trace back investigations (on-site)
- Food spoilage investigation - sampling plans, sampling, testing, root cause analysis & preventative measures, including on-site investigation
- Product development & preservative effectiveness study
- Food poisoning complaint investigation
- Microbiological thermal death processing studies
- Research projects for industry clients
- Training - understanding microbiology
- Method development & validation for specific customer requirements

\* When a pure culture or suitable solid culture media is submitted
