Comments:

Sampling

1. For seed lots requiring seed health testing for export certification, the submitted seed sample must have been drawn by a licensed seed sampling officer and the individual licensed sampling officer must be clearly identified on this form.
2. Sample sizes depend on the type of seed and the test required, eg.:

Seed type	Test	Sample size	Maximum ISTA seed lot size (± 5%)
Pea	Bacterial blight	1.5 kg	30,000 kg
	Ascochyta spp.	1.0 kg	30,000 kg
	PSbMV	1.0 kg	30,000 kg
	Combination of any of the above three	1.5 kg	30,000 kg
	Ditylenchus dipsaci	1.0 kg	30,000 kg
	India compliance	1.0 kg	30,000 kg
Wheat/barley/oats/rye etc.	*Fusarium* spp.	1.0 kg	30,000 kg
Clover	China compliance	20 g	10,000 kg
	Kabatiella caulivora	20 g	10,000 kg
Maize	*Sphacelotheca reiliana*	1.0 kg	40,000 kg
Grasses	China compliance	60 g	10,000 kg

For other seed types or tests please enquire.

3. Submit samples with this completed form to:
