Ingezim BLV COMPAC 2.0	Immunologia y Genetica Aplicada, S.A.	Unlimited	Units
Ingezim IBR ELISA/IBR COMPAC ELISA	Immunologia y Genetica Aplicada, S.A.	Unlimited	Units
Mycobacterium tuberculosis gamma interferon test kit	Asure Quality, Australia	Unlimited	Units
QC antisera (inactivated)	Various	Unlimited	Units

Import Health Standard

BIOPRODIC.ALL, 05 Nov 2015, BIO - Biological Products (Including Samples)

Post Entry Type : Nil

Special Conditions : You must comply with the import health standard(s) listed in this permit. For further information contact MPI at the top of the permit or via the MPI website; <http://mpi.govt.nz/law-and-policy/requirements/import-health-standards/>

- If an imported test kit tests for a notifiable organism or a reportable organism, there is a legal requirement to report a positive result immediately to 0800 80 99 66.

- A positive test kit result for a notifiable organism may be a false positive and is considered only "suspicious" until confirmed at the MPI Animal Health Laboratory (AHL).

- When supplying test kits for exotic diseases to a third party, this party must be informed of the conditions listed above.

Products containing the following (unless within test kits where the volumes of the kit solutions are less than 20ml or 20g) are NOT eligible for entry under this import permit:

- Bovine Serum Albumin (BSA)
- Egg Products
- Meat Extracts

- Animal serum and blood products
- Ruminant Central Nervous System (CNS) tissue
- Foetal Calf Serum (FCS)

All products listed on this permit must be commercially manufactured and packaged.

No viable organisms, viable antigens or viable cells are permitted entry under this permit.

No unwanted organisms are permitted entry under this permit.

IMPORTANT INFORMATION FOR PERMIT HOLDERS AND AGENTS

- 1 This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not guarantee that the goods you import will be given biosecurity clearance. There are other restrictions in sections 27 and 28 of the Biosecurity Act 1993 which apply to the giving of biosecurity clearance. The Biosecurity Act may be accessed at www.legislation.govt.nz
- 2 You will need to ensure that the goods you import comply with the provisions of the specific import health standard(s) and/or entry conditions that are applicable. The import health standard may be amended during the course of your permit. Import Management will notify you of any significant changes to the import health standard and will re-issue the permit to accommodate these changes.
- 3 There are a number of other provisions in the Biosecurity Act 1993 which may affect you. If you commit an offence against the Biosecurity Act 1993, heavy penalties under section 157 of the Act might apply.
- 4 Apart from the Biosecurity Act 1993, there are other laws relating to or prohibiting the importation of goods. This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not absolve you of the need to comply with these laws.
- 5 Unless specifically identified in 'Description of Items' or 'Special Conditions' of the permit, NO new organisms, including genetically modified organisms, are permitted entry under this permit.
- 6 All cultures must be:
 - clearly labelled with the scientific strain and name
 - consigned in leakproof packaging
 - free from contaminants
- 7 All new organisms must not be opened until received by the nominated containment facility.
