for Director General, Ministry for Primary Industries, acting under delegated authority.

Permit for : AsureQuality Ltd
1C Quadrant Drive
Waiwhetu
Lower Hutt, 5010
New Zealand
Attention : Ushma Dahya
ushma.dahya@asurequality.com

Permit No : 2021078973
Replaces Permit No : 2021077979
Expiry Date : 24 Nov 2022
No of Consignments : Multiple
Import Purpose : Laboratory Testing Only

End Users :

Shipped From : All Countries

Description of Items	Supplier	Quantity	Measure
1 kg honey/honey products including pollen, honeycomb, bees wax, royal jelly, propolis		Unlimited	Units
2 kg wool samples		Unlimited	Units
Animal hair and animal parts (eg: teeth, bones, claws etc) from healthy animals for forensic identification and chemical analysis*		Unlimited	Units
Antibody preparation from ovine, bovine, cervine, caprine and porcine.		Unlimited	Units
Avian body parts (eg: feathers, claws, beaks, etc) for forensic identification and chemical analysis*		Unlimited	Units
Avian tissues from healthy animals for chemical analytical testing only		Unlimited	Units

Description of Items	Supplier	Quantity	Measure
Bovine & porcine meat samples for chemical analysis (refer to special conditions)	Malaysian Dept of Veterinary Services	Unlimited	Units
Cattle muscle, kidney and liver samples for residue testing only (refer to special conditions)	Citizens Alliance	Unlimited	Units
Checkmeat -2 pages vet stamped 0153		Unlimited	Units
Dairy samples (note restrictions under special conditions)***		Unlimited	Units
Dead fresh water snails in formalin		Unlimited	Units
Dead invertebrate species and faeces with small amounts of processed host material of animal or plant origin		Unlimited	Units
Dead marine fish samples		Unlimited	Units
Dead shellfish and marine organisms*		Unlimited	Units
Edible bird nests for chemical analysis only		Unlimited	Units
Egg and egg products including egg powder and instant meal products		Unlimited	Units
Fish food samples		Unlimited	Units
Fish oil		Unlimited	Units
Frozen fish, crustacea, shell-fish		Unlimited	Units
Frozen, non-viable animal specimens		Unlimited	Units
Human & animal effluent		Unlimited	Units
Irradiated porcine blood, human urine and bovine serum		Unlimited	Units
Meat for chemical analysis (refer to special conditions)	China, Japan, Argentina, Hong Kong	Unlimited	Units
Meat samples (refer to special conditions)		Unlimited	Units
Milk & dairy product samples (note restrictions under special conditions)***		Unlimited	Units
Muscle, liver, kidney, fat, blood, plasma, serum, stomach contents, bile, faeces and urine samples from ovine, bovine, cervine, caprine, murine,sciurine, canine, equine, poultry, ratite, possum, kangaroo and porcine animals for chemical analytical testing only.		Unlimited	Units
Non-viable fresh or frozen fish eggs/roe for chemical testing only		Unlimited	Units

Description of Items	Supplier	Quantity	Measure
Pet food (dry and wet) for chemical analysis		Unlimited	Units
Pig liver and muscle for chemical analysis from Hawaii (refer to special conditions)		Unlimited	Units
Rabbit tissue		Unlimited	Units
Salmon samples (less than 10 kgs)		Unlimited	Units
Whole bird eggs* for analysis only (hatching eggs ie, eggs that require incubation, are not permitted)		Unlimited	Units

Import Health Standard

BIOPRODIC.ALL, 05 Nov 2015, BIO - Biological Products (Including Samples)

Post Entry Type : Transitional Fac

Standard Reference : 154.02.17 (Standard - Transitional Facilities for Biological Products)

Transitional Facility : AsureQuality - Waiwhetu
1C Quadrant Drive
Waiwhetu
Lower Hutt

Operator : Michael Leslie Fenton

Ref : 1754

Special Conditions : You must comply with the import health standards (IHS) listed on this permit and meet any special conditions recorded below. The IHS can be found at:
<https://www.mpi.govt.nz/legal/compliance-requirements/ihs-import-health-standards/>

* This product may require a Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) permit to export from the originating country. In the case of samples collected prior to the establishment of CITES a declaration may be required.

*** Samples must be from healthy ruminants and only chemical analysis is permitted on these samples.

No viable organisms or viable antigens are permitted entry under this permit to import.

No samples are to be used for the purposes of microorganism enrichment, isolation and/or culture.

All meat samples must be boneless (with lymph nodes removed). Once testing has been completed, all samples, residues and wrapping materials must be destroyed through an approved MPI waste disposal method.

FOR BEE-RELATED PRODUCTS / SAMPLES:

- The areas of the transitional facility where the bee product is exposed or likely to be exposed must be insect proof as approved by MPI in the transitional facility's operating manual.

- Once evaluation is complete, the remaining samples, all residues and wrapping materials must be destroyed as per the facility's approved operating manual or by incineration at a transitional facility approved by MPI for that purpose.

IMPORTANT INFORMATION FOR PERMIT HOLDERS AND AGENTS

- 1 This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not guarantee that the goods you import will be given biosecurity clearance. There are other restrictions in sections 27 and 28 of the Biosecurity Act 1993 which apply to the giving of biosecurity clearance. The Biosecurity Act may be accessed at www.legislation.govt.nz
- 2 You will need to ensure that the goods you import comply with the provisions of the specific import health standard(s) and/or entry conditions that are applicable. The import health standard may be amended during the course of your permit. Import Management will notify you of any significant changes to the import health standard and will re-issue the permit to accommodate these changes.
- 3 There are a number of other provisions in the Biosecurity Act 1993 which may affect you. If you commit an offence against the Biosecurity Act 1993, heavy penalties under section 157 of the Act might apply.
- 4 Apart from the Biosecurity Act 1993, there are other laws relating to or prohibiting the importation of goods. This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not absolve you of the need to comply with these laws.
- 5 Unless specifically identified in 'Description of Items' or 'Special Conditions' of the permit, NO new organisms, including genetically modified organisms, are permitted entry under this permit.
- 6 All cultures must be:
 - clearly labelled with the scientific strain and name
 - consigned in leakproof packaging
 - free from contaminants
- 7 All new organisms must not be opened until received by the nominated containment facility.
