ANIMAL SAMPLES and SPECIMENS

Pursuant to section 27(1)(d)(iii) of the Biosecurity Act 1993, Chief Technical Officer (CTO) direction 2023 082 [G] allows the following equivalence for animal samples and specimens for analysis under BIOLOGIC.ALL:

Animal samples imported for analysis, regardless of the animal's health status, can be imported as long as the following requirements are met:

1. The samples must be imported on an MPI import permit which directs them to a transitional facility approved to 154.02.17; and
2. The purpose of the import is for evaluation and destruction unless permission has been granted by MPI (in writing) for sample retention; and
3. The samples must be for analysis that does not require viable samples; and
4. The activities being undertaken on the samples must be covered in the scope of the facility's MPI-approved quality management system / operating manual.
5. The areas of the transitional facility where any invertebrate samples are analysed must be insect proof as per the facility's MPI-approved quality management system / operating manual.

Important Information for Permit Holders and Agents

1. This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not guarantee that the goods you import will be given biosecurity clearance. There are other restrictions in sections 27 and 28 of the Biosecurity Act 1993 which apply to the giving of biosecurity clearance. The Biosecurity Act may be accessed at www.legislation.govt.nz.
2. You will need to ensure that the goods you import comply with the provisions of the specific import health standard(s) and/or entry conditions that are applicable. The import health standard may be amended during the course of your permit. The Ministry for Primary Industries will notify you of any significant changes to the import health standard and will re-issue the permit to accommodate these changes.
