Bacterial cultures isolated from food and drink samples for identification (as per HSNO approval NOC002470)	Various	Unlimited	Units
Chicken meat (cooked, raw and frozen) - as per HSNO approval NOC100151	Various	Unlimited	Units

Description of Items	Supplier	Quantity	Measure
Culture media: TSI, Baird Parker agar, Bismuth Sulphite agar, MYP) - as per HSNO approval NOC100151	Wyeth Singapore	Unlimited	Units
Dairy samples - as per HSNO approval NOC100151	Various	Unlimited	Units
Dead marine shellfish and dead pacific oysters (with and without shells) - as per HSNO approval NOC100151	Various	Unlimited	Units
Egg and egg products, including egg powder and instant meal products - as per HSNO approval NOC100151	Various	Unlimited	Units
Factory environmental monitoring samples - as per HSNO approval NOC100151	Various	Unlimited	Units
Food micro proficiency testing samples - as per HSNO approval NOC100151	Nestle (Australia), FAPAS (UK)	Unlimited	Units
Fungal cultures isolated from food and drink samples for identification (as per HSNO approval NOC002470)	Various	Unlimited	Units
Honey, pollen, honeycombs and bees wax samples - as per HSNO approval NOC100151	Various	Unlimited	Units
Human and animal antibodies - as per HSNO approval NOC100151	Various	Unlimited	Units
Marine fish (dead, dried, frozen, powder, oil or cooked) - as per HSNO approval NOC100151	Various	Unlimited	Units
Meat and meat by products samples - as per HSNO approval NOC100151	Various	Unlimited	Units
Natamycin - as per HSNO approval NOC100151	Various	Unlimited	Units
Premix (contains dairy powder, trace elements and vitamins) - as per HSNO approval NOC100151	Various	Unlimited	Units
Processed chicken skin - as per HSNO approval NOC100151	Various	Unlimited	Units
Royal jelly and propolis - as per HSNO approval NOC100151	Various	Unlimited	Units
Soil and sediment samples - as per HSNO approval NOC100151	Various	Unlimited	Units
Unprocessed wool and animal hair) - as per HSNO approval NOC100151	Various	Unlimited	Units

## Import Health Standard

MICROIC.ALL, 31 Jan 2010, Microorganisms from All Countries

---

**Post Entry Type :** Containment

**Standard Reference :** 154.03.02 (Facilities for Microorganisms and Cell Cultures: 2007a)

**Containment Facility :** AsureQuality - Auckland (Labnet)    **Operator :** Shalendra Naidu  
131 Boundary Road  
Blockhouse Bay  
Auckland

**Ref :** 1512

---

**Special Conditions :** You must comply with the import health standard(s) listed in this permit. For further information contact MPI at the top of the permit or via the MPI website;  
<http://mpi.govt.nz/law-and-policy/requirements/import-health-standards/>

As per control 4 of HSNO approval NOC002470: this approval is limited to the importation into containment of non-pathogenic micro-organisms (Risk Group 1)

Products imported under this permit may also be intended for chemical analysis. If this is the case, the products must also be imported on the appropriate restricted import permit issued under the import health standard for biological products (BIOPRODIC.ALL). All microorganism enrichment, isolation and/or culture work must be completed prior to the samples undergoing chemical analysis.

There must be no attempt to undertake microorganism enrichment, isolation and/or culture work for unwanted organisms.

CTO direction 2015 095 (for the clearance of bee products) revokes CTO direction 2014 119 and applies to all royal jelly, propolis, bee pollen, honeycombs and bees wax samples listed on this import permit. The areas of the facility where the bee product is exposed or likely to be exposed must be insect proof as approved by MPI in the facility's operating manual.

All bee product samples must be destroyed upon completion of the testing processes.

---

## IMPORTANT INFORMATION FOR PERMIT HOLDERS AND AGENTS

- 1 This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not guarantee that the goods you import will be given biosecurity clearance. There are other restrictions in sections 27 and 28 of the Biosecurity Act 1993 which apply to the giving of biosecurity clearance. The Biosecurity Act may be accessed at [www.legislation.govt.nz](http://www.legislation.govt.nz)
- 2 You will need to ensure that the goods you import comply with the provisions of the specific import health standard(s) and/or entry conditions that are applicable. The import health standard may be amended during the course of your permit. Import Management will notify you of any significant changes to the import health standard and will re-issue the permit to accommodate these changes.

## IMPORTANT INFORMATION FOR PERMIT HOLDERS AND AGENTS

- 3 There are a number of other provisions in the Biosecurity Act 1993 which may affect you. If you commit an offence against the Biosecurity Act 1993, heavy penalties under section 157 of the Act might apply.
- 4 Apart from the Biosecurity Act 1993, there are other laws relating to or prohibiting the importation of goods. This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not absolve you of the need to comply with these laws.
- 5 Unless specifically identified in 'Description of Items' or 'Special Conditions' of the permit, NO new organisms, including genetically modified organisms, are permitted entry under this permit.
- 6 All cultures must be:
  - clearly labelled with the scientific strain and name
  - consigned in leakproof packaging
  - free from contaminants
- 7 All new organisms must not be opened until received by the nominated containment facility.
