IHSs can be viewed via the MPI website:  
<https://www.mpi.govt.nz/legal/compliance-requirements/ihs-import-health-standards/>

---

#### BIOLOGICAL PRODUCTS DERIVED FROM PLANTS

Biological products derived from plants are not permitted to be imported under BIOLOGIC.ALL and must be imported under an applicable plant-related import health standard.

---

Samples from animals or processed biological products of animal origin imported under this permit can only be used for analysis that does not require viable samples - BIOLOGIC.ALL does not permit microorganism enrichment, isolation, or culture / enumeration.

---

The activities being undertaken must be covered with the scope of the facility's MPI-approved quality management system / operating manual.

---

Once evaluation is complete, the remaining samples, all residues and wrapping materials must be destroyed as per the facility's approved operating manual or by incineration at the transitional facility approved by MPI for that purpose.

---

The areas of the transitional facility where invertebrate samples or product is exposed or likely to be exposed must be invertebrate proof as approved by MPI in the transitional facility's operating manual.

---

FOR ANY PRODUCTS THAT ARE, OR CONTAIN, RUMINANT MEAT AND BONE MEAL (MBM)

Products / samples that are entirely comprised of MBM sourced from ruminant animals must NOT be imported under this permit. Please contact [animal.imports@mpi.govt.nz](mailto:animal.imports@mpi.govt.nz) for import information.

Products / samples that are entirely comprised of MBM sourced from non-ruminant animals can be imported under this permit provided they are accompanied by a document stating the following: "The Meat and Bone Meal (MBM) sample is not derived from ruminant animals. The sample is derived from <INSERT NON-RUMINANT SPECIES MBM IS DERIVED FROM>"

Products / samples that contain ruminant MBM as an ingredient, rather than comprising entirely of ruminant MBM, can be imported under this import permit.

---

Items imported under this permit are for in vitro laboratory use only and cannot be used in the manufacture of products to be used in/on, animals.

---

ANIMAL SAMPLES MAY ALSO NEED TO MEET CITES REQUIREMENTS

A Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) permit to export from the originating country may be required. In the case of samples collected prior to the establishment of CITES, a declaration is required.

---

This permit replaces IMPACT permit 2023081007.

---

### Important Information for Permit Holders and Agents

1. This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not guarantee that the goods you import will be given biosecurity clearance. There are other restrictions in sections 27 and 28 of the Biosecurity Act 1993 which apply to the giving of biosecurity clearance. The Biosecurity Act may be accessed at [www.legislation.govt.nz](http://www.legislation.govt.nz).
2. You will need to ensure that the goods you import comply with the provisions of the specific import health standard(s) and/or entry conditions that are applicable. The import health standard may be amended during the course of your permit. The Ministry for Primary Industries will notify you of any significant changes to the import health standard and will re-issue the permit to accommodate these changes.
