June	First Monday	Beet Fodder Radish Rape Strawberry clover Swede Turnip White Clover	(autumn sown crops) (autumn sown crops) (change of variety) (change of variety see below)
July	First Monday	Cocksfoot Pea Red Clover Serradella	 (sown prior to 1 July) (Autumn sown)
September	First Monday	Bromes Browntop Caucasian Clover Chicory Dogstail Fescue Festulolium Lentil Lotus Lupins Phalaris Plantain Ryegrass Strawberry Clover Timothy White Clover Yorkshire Fog	 (see below)
November	First Monday	Barley Bean Fodder Radish Linseed Lucerne Oat Pea Red Clover Ryecorn Triticale Wheat	 (spring sown crops) (if sown after 1 July) (spring sown)

*White Clover/Strawberry Clover - If sowing is a change of cultivar in nucleus, breeders or basic class, application for certification must be made by the first Monday in June.

Where a public holiday falls on a Monday specified, the closing date is extended one day to the Tuesday immediately following.

Overseas cultivars of species for which there is a set closing date should, where possible, be entered by that date, otherwise within 14 days of sowing. For other species where there is no set closing date the crop must be entered within 14 days of sowing.

The New Zealand MPI Seed Varietal Certification Scheme is administered by AsureQuality for The Ministry for Primary Industries (MPI)
